

Southern Indiana Educational Center

SIEC welcomes Bob Trammel back to Region 1! Bob has been coming to our area for many years assisting teachers of mathematics with timely initiatives. Please join him again for the following workshop.

Workshop Title: **Unpacking the Common Core State Standards for Algebra I
Preparing Students for the ECA Algebra I**

Targeted Audience: All **Algebra I** teachers and interested school administrators

Date: April 11th, 2012

Time: 9:00-3:00 pm EST

Location: SIEC

Price: \$125 Members, \$150 Non-members (includes lunch)

What to Bring: Indiana Math Standards 2000 (Blue Book)
Laptop Computer (if possible)

Description:

The morning session will focus on unpacking the new National Core Curriculum Standards for the Algebra I course. Teachers will learn about how the common core state standards were developed, changes that will occur because of the common core state standards, and where appropriate resources are located. Teachers will learn methodologies to best prepare students and teachers for the changes that will occur in the near future.

In the afternoon, teachers will learn ways to best prepare students for the ECA Algebra I assessment for 2012. Teachers will share interventions for struggling Algebra I students. Educators will visit numerous websites throughout the session.
